General explanation about the webpages

3.1 Welcomepage

Our homepage has two different versions. Version 1 is when you are not logged in and version two is when you are logged in. These two versions have been created to differentiate between the regular users, the entrepreneurs/chain partners, admins and superusers. This helps avoiding and preventing any misunderstanding. Additionally, non-logged-in individuals cannot access the events and research page. This is a security measure.

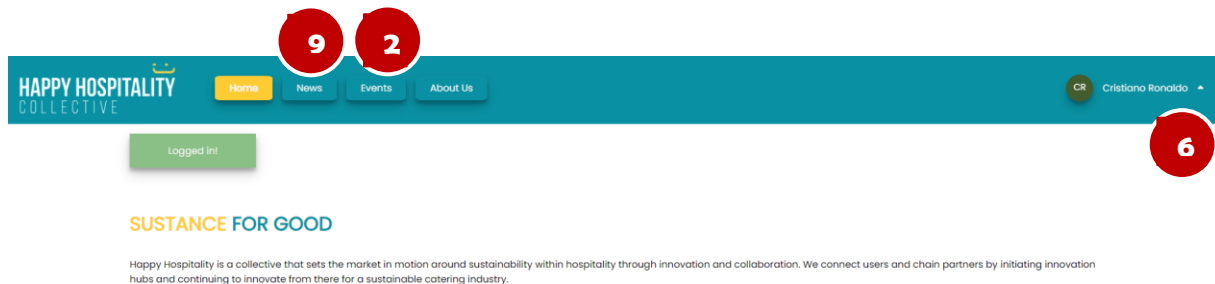

Version 1 not logged in:

- 1 **General pages.** These are the general pages where regular users can find information about the website. They can sign up for the newsletter. Also the contact info is available in the footer. You do not have to be logged in to have access to these features.
- 2 **Log in.** When you click the login button, you can “**login**” with an existing account (see 2.1). If you do not have an account, you have to press “Register”. Here you can create an account (see 2.2).
3. **Mission.** This is a brief summary on the goals and achievements of happy hospitality. You have an option to find more information by pressing the “see more” button”

Version 2 logged in:

Hier zien we de tweede versie van de homepage. In deze versie is de gebruiker ingelogd en ziet de navigatiebar er anders uit. Doordat de gebruiker is ingelogd vervallen de opties “inloggen” en “registreren” en zijn deze vervangen door “log out”, “klachten”, “timeline”, “invoerpagina”, “overzicht nieuwsbrieven”, “profiel” en “aanmaken nieuwsbrief”. Met de uitlog knop kan de gebruiker uitloggen en wordt hij/zij uitgelogd en omgeleid naar de homepage versie 1 niet ingelogd.

- 1 **General pages.** These are the general pages where regular users can find information about the website. They can sign up for the newsletter. Also, the contact info is available in the footer. You do not have to be logged in to have access to these features.
- 2 **Events:** When you click on events you can see all the available events. As an entrepreneur/general partner you can sign up for these events. As an admin and superuser you can create and delete the events
- 3 **Research** When you get to the research page you will find different types of articles for entrepreneurs/general partners.
- 4 **Networks** Als je op de “overzicht invoer” knop klikt kom je op de overzicht invoerpagina en kan je gegevens van metingen bekijken die zijn doorgegeven.
- 5 **Contact:** In the footer you will find all the contact info that is available.
- 6 **Profile:** When you press the profile button you will see different features that are available. A superuser can create admins. And admins have more access to certain features than the entrepreneurs/general partners.
- 7 **Log out:** When you click on the “log out” button you shall be navigated to the homepage, and you will be signed out.
- 8 **Brief intro/summary:** This is a brief introduction on the goals of happy hospitality.
- 9 **News:** is available on this page.

3.4 Admin

The admin page shows a slightly different style. This has been done with the reason that it is easier to notice a difference when someone with less authority has logged in.

The top screenshot shows the main admin dashboard. The header includes the 'HAPPY HOSPITALITY COLLECTIVE' logo and a user profile for 'Daniël Bruin'. The left sidebar contains navigation links: Users, Events, Challenge Articles, Research Articles, Network Articles, Subscribers, and Statistics. The main content area displays a welcome message 'Hello Daniël Bruin. Welcome to the admin page!' and a large image of a restaurant interior.

The bottom screenshot shows the 'Subscribers' management page. The header includes the 'HAPPY HOSPITALITY COLLECTIVE' logo and a user profile for 'Daniël Bruin'. The left sidebar contains navigation links: Users, Events, Challenge Articles, Research Articles, Network Articles, Subscribers, and Statistics. The main content area displays a 'Subscribers' section with a 'Create' button and a 'Send Newsletter' button. Below these buttons is a table with subscriber data.

ABOUT HAPPY HOSPITALITY & US

Sustainability

We have all heard the same story; one person talks about sustainability, the other about circular business models or a fair way of working. The newspaper is full of news about nitrogen, emissions, co2 reduction and less consumption of meat. Our pleasures are curbed, no more flying for a weekend, no more meat, and now the heater is also out. And the worst thing is that it all seems to be related and we have to take and bear that responsibility together.
